**[Allison.turkel@usdoj.gov](mailto:Allison.turkel@usdoj.gov)**

# Purposes of Sex Offender Registration and Notification

- **Enhance Community Safety**
- **Public Awareness**
- **Assist Law Enforcement**
- **Create a seamless data base of registered sex offenders**

# History of SO Registration and Notification

**SMART**

Office of Sex Offender Sentencing, Monitoring,  
Apprehending, Registering, and Tracking

- Pre 1994: Few states required convicted sex offenders to register addresses with local law enforcement.
- 1994: Wetterling Crimes Against Children and Sexually Violent Offender Act
  - Set standards for the implementation of a state-level sex offender registration program.
- 1996: Megan's Law amendment required certain registration information to be made public.

# Significant Changes in SORNA

- Expanded the sex offense convictions required to be registered by registration jurisdictions:
  - Tribal Convictions
  - CFR Convictions
  - Military convictions
  - Foreign Convictions
  - Limited Juvenile Convictions
- Expanded the registration jurisdictions required to establish sex offender registries:
  - Including eligibility for 214 Federally Recognized Indian Tribes - now 161 IC SORNA registration jurisdictions, including 71 that have substantially implemented

# Significant Changes in SORNA

- Expanded where offenders must register: Any place where they were convicted, live, work or go to school:
  - Sex offender registration is Civil Regulatory: Enforcement is criminal
  - So offenders whether native or not **MUST** register with SORNA tribe if live, work or go to school on tribal land
  - So offenders may be registered in multiple jurisdictions!

# Implementation Update

**SMART**

Office of Sex Offender Sentencing, Monitoring,  
Apprehending, Registering, and Tracking

- 26 tribes have been delegated by operation of law to state, 25 others opted out delegating their responsibilities to State
- 2 tribes remain SORNA jurisdictions but have no land
- 71 tribes have been found to have substantially implemented
- 17 States and 3 territories have been found to have substantially implemented
- The remainder of tribes are “reasonableness” category and are working on implementation
- Must be actually working on implementation

# Three Tiers of Sex Offenders

- **Tier I:** Lowest Level. Catch-all covering all convictions for a “sex offense” not covered in Tiers II or III.  
15 year registration period  
Annual in person verifications  
Tribal Convictions are default Tier 1\*
- **Tier II:** Mid-Level. 25 year registration period  
Bi-annual in person verification
- **Tier III:** Highest-Level. Lifetime registration period.  
Quarterly in person verification
- A sex offender shall appear in person, allow the jurisdiction to take a current photograph, and verify the information in each registry offender is required to be registered

# What is Substantial Implementation

- Determination by the SMART Office after submission of a Substantial Implementation Package
- Need to have system up and running i.e. Code passed, website up, offenders notified and registered or recapture in place, federal database submissions worked out, policy and procedures unique to how registration and notification is done in your jurisdiction, forms etc
- Review, coordination and assessment to see if Tribe has a functioning sex offender registration and notification system-KEEP POC up to date
  - Then to OGC, then to Director
- Implementation is on-going: Implementation assurance process
